

Don't let arthritis pain slow you down.

Arthritis pain is constant. It's your daily reminder that you're missing out on the activities that were once enjoyable. Fortunately, there are treatment options, including joint replacement. At Biomet, we encourage you to talk to an orthopedic surgeon about the options that could help get you back to real living. To learn more, or to locate an orthopedic surgeon in your area, visit biomet.com/patients or call for a free brochure.

Biomet. It's your life. Live it.

Biomet is a manufacturer of orthopedic implants and does not practice medicine. Only an orthopedic surgeon can determine what treatment is appropriate. Individual results of total joint replacement may vary. The life of any implant will depend on your weight, age, activity level, and other factors. For more information on risks, warnings, and possible adverse effects, see the Patient Risk Information section found within Biomet.com. Always ask your doctor if you have any questions regarding your particular condition or treatment options.
